

Congressmen Pledge Aid To Project

Lake Harmony—Efforts to unify all Northeastern Pennsylvania counties in a concerted drive to bring a \$73,000,000 Air Force jet maintenance depot to this region received unanimous endorsement of 25 civic leaders here yesterday.

Meeting at Split Rock Lodge, representatives from nine counties heard three congressmen endorse the base which would employ 8,000 civilian workers, in addition to 5,000 military personnel. The meeting was arranged by the Northeast Pennsylvania Industrial Development Commission, which is spearheading the drive for the depot.

They formed a committee to select a site from six mentioned (two of which are in Monroe County) and took steps to bring both State and National officials to Hazleton for a meeting when the proposals would be offered.

Tobyhanna's U. S. Signal Corp. Depot hiring procedure came under fire from a Schuylkill County contingent who urged that no restrictions be placed on the selection of workers who would man a jet base if the construction in Northeast Pennsylvania ever becomes a reality.

The objection came from both Rep. Ivor Fenton, of Schuylkill and Northumberland Counties, and Joseph McGuire, president of the Pottsville Chamber of Commerce. Both men emphasized that Tobyhanna limited its region of hiring to a 35-mile radius, and that people living in their section, in need of work, were refused employment at the Monroe County depot.

McGuire asked that records of yesterday's meeting show no restrictions will be placed on the regions from which workers would be enlisted if the jet plane base is built in this section. He said the Schuylkill region has an unemployed list of 7,500 persons, all seeking work.

Joseph Zerbe, editor of the Pottsville Republican and credited with being one of Schuylkill County's leaders for location there of the jet plane base, reviewed the steps his county took in six months to bring the base there, only to have the Air Force turn thumbs down. Zerbe said the populace of his county proved to the Air Force they had a good location on Broad Mountain, but the government declined their offer saying weather conditions were not satisfactory.

Rep. Fenton emphasized that Schuylkill County has not given up its fight for the base, but would back any effort to situate the site in the anthracite coal region.

Reps. Edward J. Bonin, of Luzerne County, and Joseph L. Carrig, of Lackawanna County, pledged their support to any plan bringing the base to Northeast Pennsylvania.

Carrig also commented on Rep. Francis E. Walter's statement early this week that the proposal to build a jet base in the Pocono Mountains region is "purely a political move." He told the group "We can't let the opinion of one man stand in our way and the way of progress for this section."

The Lackawanna County representative said the entire Northeast section of Pennsylvania would benefit if a jet base were built here and urged that unity come about rather than have the leaders at odds as to where the base would be located.

He concluded his statement with "We should not allow politics to (Continued on page five)

Jury Finds Storch Guilty

Butler, (P) Ernest E. Storch, charged with hiring two men on the installment plan to kill his wife, was convicted of accessory before the fact of murder yesterday by a jury that recommended life imprisonment.

The jury of 10 men and two women was cloistered about four and a half hours before returning the verdict.

Storch, a lanky and balding 50-year-old truck mechanic, turned a deep red and worked his lips nervously when the jury filed in. He didn't flinch when the verdict was read.

Visiting Judge J. Frank Graft of Armstrong County put off the official sentencing pending the possibility of a new trial motion by defense counsel.

Two Plants Halt Car Assemblies

Detroit, (P) Car assemblies were halted at two General Motors plants and reduced at another yesterday as a result of Wednesday's 50 million dollar fire at GM's Detroit transmission plant.

Assembly lines were down at the Pontiac plant in nearby Pontiac and at Oldsmobile in Lansing. Production was limited to five hours at the Cadillac plant here Thursday and yesterday.

Up to 50,000 GM workers are facing layoff threats because of the fire.

194 MPH Typhoon, Mightiest Ever Recorded, Churns Toward U. S. Island Base Of Okinawa

Naha, Okinawa, Saturday, (P)—A terrible engine of destruction—perhaps the mightiest typhoon ever recorded—churned up new power today as it roared down on this big U. S. island base in the Western Pacific.

Americans and islanders huddled in cement structures and typhoon shelters awaiting the big blow. Angry gusts from outside the fringes of the typhoon lashed the airfields and rolling hills of the island.

Air Force Weather planes prowled the egg-shaped mass of howling winds, 300 miles wide across its northeast-southeast diameter, keeping vigil on the monster phenomenon.

Their latest checks showed that winds in the center were whirling at a sustained speed of 194 miles an hour, 10 miles faster than shown in an earlier check.

The barometric reading was 26 inches of mercury, possibly a record low.

Wind velocity on the fringe of the typhoon, ranging from 160 to 250 miles out from the center, was nearly 60 miles an hour.

At 9 a.m. (8 p.m., EDT, Friday) the eye of the typhoon was 330 miles southeast of Okinawa. It was moving toward Okinawa at 10 miles an hour.

Nation's Farmers Approve Government Plan To Invoke Quotas On 1954 Wheat Crop

Washington, (P)—The nation's farmers apparently approved a government proposal to invoke rigid marketing quotas on the 1954 wheat crop in a politically important referendum yesterday.

Incomplete, unofficial returns from 37 representative wheat growing states gave 153,291 votes for the control program and 33,148 against.

Woman Killed By Runaway Truck On Hill

Wilkes-Barre, (P)—A runaway tractor-trailer truck slammed into a car carrying three women on the Ashley Boulevard yesterday, knocking it 150 feet down a rock embankment.

Mrs. Helen Ceaser, about 50, of Mountain Top, was killed. Her daughter, Mrs. Rose Kutzenich, 25, and Miss Lois Reinheimer, 25, both of Wapwallopen, were taken to a hospital for treatment of multiple abrasions and shock.

The truck came to a stop with the cab of the tractor balanced atop the embankment. The truck driver, Raymond Herr, 23, of Runk, Pa., and his helper, Roy Lester, 24, Ephrata, were not injured.

Herr told state police he had just rounded a sharp curve in the road at a section called "the big hill" when he discovered the truck brakes had failed. The truck carried 13 tons of potatoes consigned to a Scranton wholesaler.

At almost the same point, another tractor trailer crashed last Wednesday, injuring four persons.

Storm Causes Five Deaths, Heavy Damage

New York, (P)—Hurricane Barbara swirled northeastward off New Jersey last night, promising the Northeast only a taste of the destruction it had visited earlier on Virginia and North Carolina.

At 11 p.m. the hurricane which had caused five deaths and more than a million dollars damage was at sea, 70 miles northeast of Atlantic City.

Crunching along at 15 miles per hour, it was expected to strike the extreme eastern tip of Long Island, 125 miles east of New York City, by early morning.

If it continued its course it was expected to skirt the coast of New England.

Although thousands of persons fled exposed coastal areas and the entire Northeast was battered down, the Weather Bureau said there would be no hurricane disaster such as that which struck this area in 1938.

"The way it looks now," the Boston forecaster said, New England will suffer no more than "an ordinary northeast."

The hurricane, first of the season and second of the year, went to sea after scraping over North Carolina and Virginia coastal areas.

The blow packed a punch of 80 miles an hour at its core—less than in some hurricanes of the past but sufficient to knock down trees and smash windows.

North Carolina farm officials surveyed flattened fields and estimated damage to corn, bean, cotton and tobacco crops at more than a million dollars in that state alone.

A man was blown from a pier near Wilmington, N. C. Swept out to sea, he presumably was drowned.

A policeman in Norfolk County, Va., was killed when he touched a fallen live wire.

At Wading River, on the eastern end of Long Island, a man who had been alerted to the impending storm suffered a heart attack and died while pulling a boat from the water.

Driving rains which accompanied the storm's advance were blamed for traffic accidents which caused deaths on the New Jersey Turnpike and in New York City.

Luck Rides With Queens Woman

New York, (P) Yesterday was Mrs. Rita Buhner's lucky day. As the 43-year-old Astoria, Queens, woman was driving across South Channel bridge over Jamaica Bay, her automobile skidded, mounted the curb and threw her out to the roadway.

Then the car went over the side and disappeared in the deep waters of the channel.

Mrs. Buhner was treated at Rockaway Beach hospital for shoulder bruises and shock.

Murder A Mile Marches

Hundreds Of Americans Perished During 1950-51, Returnees Say; Torture Common

Freedom Village, Korea, (P)—U. S. prisoners were taken on a "murder a mile" march deep into North Korea in 1950 on which 500 of them perished, a returned American said yesterday.

Another told of a death march in the cruel cold of 1951 on which a Chinese officer said the strong would survive and the weak would die. Only 200 of 800 men were strong.

Yet another told of a camp where beatings and torture became so commonplace that the prisoners named it "Black Valley."

There also were the usual stories of Americans who said out their countrymen and spied on their comrades for the Communist captors.

"We lost a man a mile for at least 70 miles by murder," said Pfc. James R. Hunt of Russell, Pa., of an infamous march in November of 1950 under a North Korean officer by his victims "the Tiger."

Returned civilians and sick or

wounded exchanged last. April have told of this march, but Hunt added a little more grim detail.

"The Tiger personally shot an Army lieutenant and the whole column of us witnessed it," Hunt declared.

The prisoners were stoned by Korean civilians when they reached Manpojin, near the Manchurian frontier. It was there that "the Tiger" took over for the "murder a mile" march to a camp farther north.

Hunt estimated that no more than 210 of 723 who started out finished the march. The rest were shot, or died of hunger, disease or wounds.

Sgt. Gerald K. Young of Des Moines said 800 weak and wounded prisoners were taken on a 2-month march from near the front in the bitter winter of 1951. Only 200 made it.

He said a tall Chinese officer lined up the prisoners at the outset of the march and snarled in perfect English: "Now we are go-

ing to separate the men from the boys."

"He meant the strong would live, the weak would die," Young said.

On the march those who fell out were left where they fell. One was kicked over a cliff.

Pfc. Charles J. Wolfe of Wallace, W. Va., said Camp 3 at Chongsong became known as "Black Valley" because of the brutality, poor food and lack of medical care. His was one of the first reports from the camp.

"There were beatings and torture by men being hung up by ropes until just their toes touched the floor," he said. "Men were thrown into holes and locked in there for days without blankets or winter clothing."

Pfc. Charles August Boudie of Drayton, N. D., said conditions were no better at Chongsong's Camp 1, where he estimated 600 prisoners died of disease and neglect. His estimate tallied with those of prisoners previously returned from Camp 1.

DeHaven's Ship Delayed By Bad Weather

The Manchester Pioneer—a British freighter bringing 8 Sgts. Charles (Sonny) DeHaven toward Montreal, Canada, and a reunion with his parents—has been delayed by bad weather.

According to port authorities at Montreal the ship is not due to dock there until late tonight.

On board the freighter with Sgt. DeHaven are two other survivors of the giant RB-36 crash in the North Atlantic a week ago.

Mr. and Mrs. George R. DeHaven, Sonny's parents; an uncle and aunt and his sister, Mrs. Richard Weaver, arrived in Montreal late Thursday to await arrival of the ship.

Upton Named To Succeed Sen. Tobey

Concord, N. H., (P) Robert W. Upton, 60-year-old Concord lawyer, yesterday was appointed to succeed his long time friend, Charles Tobey in the United States Senate.

Upton a Republican, will serve until January 1955.

The remaining two years of the late Sen. Tobey's term will be filled at the state elections in November 1954.

Upton declined comment on whether he would run in 1954.

The appointment was announced by Gov. Hugh Gregg, who was known to be interested in the office himself.

But Gregg said he considered it his "primary obligation to complete my term as Governor."

The appointment of a Republican to succeed Tobey also a Republican, leaves the Senate with 47 GOP members and 47 Democrats, along with Independent Wayne Morse of Oregon.

Warm Weather Indicated By 30-Day Outlook

Washington, (P)—The Weather Bureau said yesterday its 30-day outlook for mid-August to mid-September calls for temperatures to average below normal in the Southeast, Northern Plains and Great Basin and above normal in the Northeast, Southeast and Gulf Coast.

In the remainder of the country temperatures are expected to average not far from normal, the bureau said.

Rainfall is expected to exceed normal in the Northern Plains, Upper Lakes, Southern Plateau and along the Atlantic Coast. Sub-normal amounts are indicated along the West Coast and in a broad band from Texas northeastward through the Lower Mississippi and Ohio Valleys to the Lower Lakes. Elsewhere near normal amounts are predicted, the bureau added.

ROK Repatriates Aim Blows At Red Exchange Officers

Panmunjom, Korea, Saturday, (P)—South Korean repatriates battling with hate for their Communist captors yelled and aimed blows at Red officers today in the 11th war prisoner exchange that brought 50 more Americans back home.

The Americans and British, 50 of each, apparently were in good health. They smiled and waved to spectators as they clambered from the Communist trucks that brought them from Kaesong, North Korean advance bases.

The Communists now have repatriated a total of 957 American and 419 British. The Reds say they have 2,356 more Americans to send back.

Among those released today was one Northeast Pennsylvania resident, Pfc. Albert J. Tuttle, 438 Wright St., Scranton.

Many of the 300 South Koreans arriving on Korea independence day today were singing and shouting. When they leaped from the Red trucks it took U. S. Marine guards to restrain a few from assaulting the Red officers watching the exchange.

Many of the ROK repatriates had shed their Communist prison blue uniforms and were clad only in shorts as their trucks arrived.

It was as though the repatriates, all in good shape today, burned to avenge many of their compatriots who arrived in previous exchanges on litters, pitifully emaciated and crippled.

It also was in accord with the fiery speech by President Syngman Rhee at Seoul on this day, the 5th anniversary of the founding of the Republic of Korea.

Rhee told thousands of paraders in the capital city "it is our wish and determination to march north at the earliest possible time" in an attempt to unify Korea.

"We must unfailingly maintain our own integrity as a free nation and insist on the right to fight for our own salvation," he declared.

Cpl. John B. Christiana, 20, Reported Dead

Two and one-half years of uncertainty ended in tragedy yesterday for Mrs. William B. Jones 75½ Washington St., East Stroudsburg.

Shortly after midnight yesterday morning, Mrs. Jones received a wire from the Defense Department informing

Cpl. John B. Christiana

her that her son, Cpl. John B. Christiana, 20, had died in a Communist prisoner of war camp in North Korea.

Cpl. Christiana was first reported "missing in action" by the Defense Department on Nov. 30, 1950. He had apparently been in the POW camp since that time.

Christiana was with the Army's Second Infantry Division on the Korean front lines. He lived in Stroudsburg only for a short time.

Prior to residence here he had lived in Oliphant, Pa., where he attended elementary schools. After coming to this area he was employed for a brief period in a hotel.

Cpl. Christiana entered service in May, 1950. He received his basic training at Fort Knox, Ky. He came "home" on his last furlough before leaving for overseas duty in September, 1950.

Less than a month later he was on the front lines.

In his last letter home to his mother, Christiana summed up the infantryman's view on combat in a single line:

"We moved to a new hill today . . ."

"This is worse than I imagined hell to be . . . There isn't much I can say now. You can guess what it is here . . . only three times worse."

Information contained in the telegram received yesterday morning by Mrs. Jones had not been completely verified by the Defense Department, the wire said.

Defense officials were depending on the accuracy of a list given to them by North Korean military officials in charge of returning prisoners during "Operation Big Switch."

As part of this operation, the Communists have issued an incomplete list of prisoners who, they say, died during their imprisonment.

If the Red-issued list was correct, infantryman John Christiana, sometime after Nov. 30, 1950, had moved to his last hill.

Cpl. Christiana, also known as John Christie, leaves his mother and stepfather in East Stroudsburg, a sister, Mrs. Anita Sullivan, and his grandparents, Mr. and Mrs. William Burke, Oliphant.

Relief Supplies Reach Stricken Ionian Islands

Patrai, Greece, (P)—Earth tremors moderated yesterday in the stricken Ionian islands and tons of relief supplies—medicines, food, clothing, water—poured from ships and planes to a people dazed by the greatest natural disaster in modern Greek history.

"The situation, although far from normal, is being brought into focus," said a dispatch radiated from the U. S. cruiser Salem, anchored off the ruined port of Argostolion.

The earth trembled 11 times in the night, but the tremors were relatively mild and the Athens Observatory said they could be regarded as a normal aftermath of the catastrophe estimated to have killed more than 1,000 persons.

## Sunday School Lesson

Scripture—Colossians 1:1-2:7

By Newman Campbell

Colossae was an important city in Greece, in the province of Asia. It was St. Paul whose preaching was responsible for the conversion of many citizens there and the founding of the church.

Paul, now a prisoner, was always anxious about the welfare of the churches he had founded, and according to his letters to the congregations, feared that the members might be weaned away from the church by evil men.

Hence, Paul's epistles praising the members for their good works assuring them of his continued affection and his prayers on their behalf, but also warning them of the possibility of evils that might assail them if they were not watchful.

In his epistle to the Colossians he speaks of our dear fellow-servant, Ephraim, "who is for you a faithful minister of Christ, who also declared unto us your love of the spirit."

Ephraim was evidently with Paul when he wrote this letter.

Remind the children how glad their families always are when some one comes to their home from a far place, and gives pleasant news of loved ones we have not seen for a long time.

He prays continually, Paul writes, that they may be filled with the knowledge of God's will, in all wisdom and spiritual understanding; that ye might walk worthy of the Lord unto all pleasing, being fruitful in every good work, and increasing in the knowledge of God.

Paul reminds them to give thanks to the Father "Who hath delivered us from the power of darkness, and hath translated us into the kingdom of His dear Son, in whom we have redemption through His blood, even the forgiveness of sins."

He then speaks of Christ, "Who is the image of the invisible God, the first born of all creation."

"For in Him were all things created, in the heavens and upon the earth, things visible and things invisible, whether thrones or dominions or principalities or powers; all things have been created through Him and unto Him."

"And He is before all things, and by Him all things exist."

"And He is the head of the body, the church; who is the beginning, the first born from the dead; that in all things He might have pre-eminence."

What does the word "pre-eminence" mean? "Eminent above others; prominent; superior, especially in excellence," says the dictionary.

How many pre-eminent people do you know? Not too many, and yet each one of us can think of some one — maybe several — whom we consider pre-eminent.

They stand out from all those we have known even in quite a long lifetime. Children may know a few — parents, other relatives, teachers — some men and women in other walks of life.

However, Christ, who, as a man on earth, went about doing good; who told us to forgive our enemies and love those who, when suffering agony on the cross, still asked His Father to forgive His torturers. No one can possibly be pre-eminent over Him in all the world.

Though Paul was absent in the body from his churches, his spirit was with them always, he writes and he warns them against men who might beguile them with "enticing words."

"As ye have therefore received Christ Jesus the Lord, so walk in Him; rooted and built up in Him, and stabilized in the faith, as ye have been taught, according therein with thanksgiving."

Thus, putting Christ above all, we can strive, as Paul wrote to the Colossians, to follow Him.

MEMORY VERSE:—"He is before all things, and by Him all things consist."—Colossians 1:17.

## LAUGHING POPLARS

The trees whose wavering branches droop to the earth are called *weeping willows*. Why not call these tall fellows, with the firm upward-reaching branches, *laughing poplars*?

People are like trees. Some droop listlessly under the burden of their own existence. They spend most of their days weeping.

Others stand upright and firm, undaunted by life's threatening storms. They can laugh, and their laughter spreads courage through the world.

Trees never change. The willow remains a willow; the poplar, a poplar.

But people *do* change. For centuries the Christian religion has been turning man's sorrow into joy, his weakness into strength.

Start worshipping every Sunday, and discover why churches are the *back-bone* of our civilization!

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor in world for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### The One-Armed Driver

News reports of the past few days tell of a broken elbow suffered by a driver whose car was sideswiped by another one. The men, who went to a hospital for surgery, had his arm resting on the windowsill of his machine when another car hit him.

Once more this points up to the undeniable fact that the one-armed drivers of the summer months are headed for trouble when they persist in the practice of "holding up the roof of the car" as they drive along. We have all observed the great number who do this, nonchalantly gripping the steering wheel with their right hand while the left arm is projected out of the window, and the greatest number of those who drive in this careless manner are those who zip in and out of the traffic stream with happy abandon.

It has been recorded in a number of states, including Pennsylvania, that drivers have had their arms amputated through collision with another vehicle, yet no one seems to take this hazard seriously.

Obviously it would be futile to put a law on the books, making the one-armed-driving practice illegal, for enforcement would be next to impossible, so it would seem that constant efforts of the motor clubs, the truck associations, and safety councils should be directed to persuading drivers to abandon the practice.

It goes without saying that two hands on the steering wheel are better than one, whether the speed be high or low, but when added to this point is the danger inherent in propping one's elbow on the sill of an open window, the hazard is multiplied.

We don't expect to see any change in the habit, however. Our modern-day driver refuses to be convinced that his habits may carry him to the morgue or the hospital. Perhaps some day these witless souls will learn by sad, if not tragic experience.

### Use For Armor

Carnegie Institute has scheduled a showing of 150 pieces of armor, pikes, lances and other implements of war of the days of knighthood.

The event, and a most interesting one it should be, is scheduled for October 15.

That is a most appropriate date for the exhibiting of such valuable relics of history. By that date, the fall political campaign will be in full swing and there will be some thin and punctured skins that could make very good use of the iron suits.

### Yea, Team!

Vito Marcantonio, the radical-mouthed chairman of the American Labor Party in New York City, is having a spat with the Communist Daily Worker.

Vito says the Worker is using "insidious appeals" to disrupt the campaign of A.L.P. candidates for city offices.

When there is a split among the boys, it always is interesting to wonder which one will get "purged."

### IT'S IN THE NEWS

The most important point to be settled at the coming U. N. session on Korean peace is: "Who's counting at the knockdown?"

Will color television provide the color shade electric notebook with the eye cubes in any color you wish?

Devolving a U. S. situation. He's the kind of fellow who applauds commercials.

If Malenkov hasn't got the H-bomb it will go hard with the scientist who told him he had.

Fritz Schell just reaching her 74th birthday, still the show on TV the other evening.

Once the top star of our musical comedy and light opera stage, she was called from the audience and sang "Kiss Me Again" in a manner that made plenty of the young singers sweat amateurs.

Queen Mary left an estate of only \$1,137,000. Being a king or queen these days is no longer being recommended as a paying career.

You can do better in the luncheonette business. Color TV will be okay up to the point where they let the boys put the credit lines in rainbow shades.

New York City's election campaign is off on such a whodunit note that it's a question whether the boys are trying to get into City Hall or into videos.

No matter which candidate has the best arguments, Bob Wagner, Jr., has the best scenario writers.

De Sapo, Tammany boss on Wagner's backer, says he has been threatened with bodily violence by hoodlum elements.

Our inside informant says the leader has been shot at by four types writers and a couple of press releases.

What's happened to Tammany Hall when the man-eating tiger shows up with a body-guard, a complaint of a threatening letter and a request that more aspirin and less meat be tossed him at feeding time?

We knew that these video appearances would have a bad effect on politicians.

Gotham voters, in considering any candidate, now ask: "What channel is he running on?"

It looks to us as if Mike Barnett or the "Racket Squad" might have to take over the New York campaign.

Harold Regelman, Republican candidate, is in a bad way. He hasn't received an anonymous letter so far.

Reactions to Malenkov's H-bomb boast: England: "I don't see how he could have it yet. We haven't released enough spies to do the job." India: "It could be true. On the other hand, it could be untrue. Either way we propose a neutral commission to

investigate and report back to the commission in charge of commissions." Spain: "You know our position, we remain neutral in the destruction of civilization."

France: "We are not concerned about the H-bomb. We can destroy ourselves without it, and are well on the way to doing so."

Uncle Sam: "My surprise is that Malenkov didn't claim Russia invented it."

There's a national convention of jewelers at the Waldorf Astoria, featuring a \$2,000,000 "ice" exhibit.

During the second a guest can wear a live-cream diamond and remain in a total eclipse.

Larry Storch is one of the most promising TV comedians but a few ditches like that one about the senators and the boat ride can ruin him.

We know a parent who won't send his kid to public school kindergarten until there's a change in the situation which requires both the pupils and the teachers to carry switch knives.

Can you remember away back when putting a simple song across was a diversion, not a project?

Charles F. Kelley, alert and able Connecticut Commissioner of Motor Vehicles, has called the turn on that cockeyed New York legislation which, believe it or not, allows one auto to pass another ON THE RIGHT.

More accidents are caused by this than anything else and from the day of the first horseless carriage it has been recognized as highly dangerous.

Commissioner Kelley is standing for none of the nonsense and is cracking down on all New Yorkers who pass cars in Connecticut on any side except the safe side.

Maybe the movie industry would have done better in getting that tax cut if it had fired its lobbyists and let Marilyn Monroe make her pleas.

Ben Hogan, visited President Eisenhower, the other day and gave the President a few tips on golf.

To play as Ben does you have to have taken a lot of punishment and after six months in the White House, Ike comes in this category.

We presume Ben told Ike that he should be allowed to lift a ball out of an agenda without penalty and miss a tee shot during a Korean crisis without taking a stroke.

Maybe Ike's golf trouble is that he stands too close to his Secretary of State, grips his favorite chair and fails to follow through on his budgets.

"As On 'Six Nines'" headlines The New York Times, indicating that a former Variety man must be on the staff.

John Foster Dulles is doing so much hectic traveling these days that we hear he recently had the distinct impression of passing himself while coming back.

Remember away back when you could look at the world picture and not be muddled?

### AMMUNITION CARRIER

Robert S. Allen Reports

## Judges Lost Expense Request When They Asked Too Much

**Side Tracked.** Federal judges can blame their failure to get much-ought increase in traveling expenses on one thing: the proposed \$25 a day is nearly three times as much as senators get.

This big difference stopped the judicial raise dead in its tracks in the Senate after the House approved it.

The proposal wasn't killed entirely. It was merely shelved during the closing hours of the recent session. It can be brought up again when Congress reconvenes next year. Whether the judges will have any better luck then depends on various factors.

But significantly indicative of the obstacles facing the measure is the discussion that led to its being ditched. Following are the highlights.

Senator Olin Johnston (D-Me.): "A senator cannot receive more than \$9 a day for expenses when traveling on official business. But under this House amendment, judges can receive up to \$25 a day."

Senator Pat McCarran (D-Nev.): "That is correct."

Senator Lester Hunt (D-Wyo.): "Why should a judge receive \$25 a day and a United States senator get only \$9? To my way of thinking, it costs us just as much to live when we are away on official business as it costs a judge when he is assigned to another court. I should like to have a reason why the amount should be \$25 in one case and only \$9 in the other."

McCarran: "A senator gets \$9 a day whether he spends it or not. But a federal judge must itemize his expenses and submit a detailed report, and under this amendment, his expenses would be limited to a maximum of \$25 a day."

Johnston: "Personally, I would be in favor of treating senators on the same basis. I would be glad to have my travel expenses increased to \$25 a day on condition that I submitted an itemized account."

Senator William Knowland (R-Calif.): "I am not sure that this matter has been decided for the present."

That did it, and the proposal went back on the calendar of unfinished business.

**Flashes.** President Eisenhower has offered the chairmanship of his new 17-member Foreign Trade Study Commission to Clarence Randall, head of Inland Steel Corp.

Senator Frederick G. Payne (R-Mo.) will be named to the vacancy on the Labor Committee created by the death of

Senator Taft. . . . Senator John Kennedy (D-Mass.) is bombarding the Civil Aeronautics Administration with hot letters charging that a big airline is violating safety by flying passenger planes across the Atlantic without experienced navigators. In one letter to Civil Aeronautics Administrator Frederick Lee Kennedy, he wrote: "I have been advised that in order to avoid having to employ navigators, your permission is being sought to fly the northern route via Iceland to Europe without navigation instead of the regular route."

**Another Kremlin Move.** Cardinal Mindszenty will soon be freed by the Red rulers of satellite Hungary.

That's the inside word from official British sources. They have informed the State Department the persecuted prelate already has been moved from prison to a private home where he is closely guarded but has more comfort. Also that Father Andreas Zakar, former secretary of the Cardinal, has been released and that several Hungarian bishops have been allowed to visit the latter.

One aspect of this report is particularly spectacular. This is an indication that the new humane policy toward Cardinal Mindszenty may be largely due to one of the two British diplomats who disappeared mysteriously several years ago. He is credited with being an influential adviser to the new puppet Premier, the Kremlin-installed after purging the Matyas Rakosi regime.

It has long been suspected that the two British officials vanished behind the Iron Curtain and are working for the Reds.

**Brewing Trouble.** Moscow is using satellite Czechoslovakia for some Communist grand-standing in Bolivia. A Czech mission has appeared in that trouble-scratched South American country with an offer to barter agricultural equipment and other much-needed machinery for tin, lead and copper. The scheme has all the earmarks of a slick propaganda maneuver.

The notorious forger, Grand Mufti has been secretly allowed to enter Jordan for the reported purpose of "strengthening the Moslem movement for the defense of the Holy City."

Western UN leaders are privately agreed on one thing concerning the Korean political conference that the General Assembly will endeavor to organize next week.

They are agreed the most explosive issue that will confront the conference at the start will be the same one that deadlocked the Panmunjom truce negotiations for more than a year.

## Men Of Quality Will Not Stay In Service Which Deliberately Rejects Winning

Hostages!

The figure of lost Americans in Korea is variously given as 10,000, 8,000, 5,000, 2,000. It looks as though nobody knows how many Americans are missing, lost, or held as hostages. General Mark Clark seems to think that about 3,000 will be kept back. That means that they will be held as hostages. Or it may mean that they are unreported dead.

I do not think that the actual numbers matter. If the Chinese Communists hold even one American as a political hostage, the American people ought not to take it lying down. If there is an exchange of prisoners, it ought to be a complete exchange. It would be fatuous to suggest that if they hold our soldiers as hostages, we should let them go. What difference would that make to them? In Asia, life is cheap and expendable.

When the first American prisoners came out, they told stories that sounded horrible, but which to me were normal in China. The stories apparently shut off these reports, fearing that they would inflame public opinion in this country. Generalissimo is generally stupid and in the long run defeats itself. The parents of our boys in Korea know of their tragedies and they cannot be comforted. The reporters, whose eyes are being bottled up, will get their

Men of quality will not stay with a service which deliberately rejects the prospect of winning a war, and which permits an enemy to hold Americans as hostages. These may sound like strong words, but I have met many officers in the past few years and while the conversations were so casual rather than formal, the summation of them is that soldiers do not like to lose wars.

stories out in due course, if not as news reports then as magazine articles.

General Mark Clark follows his predecessors Generals Douglas MacArthur, Matthew Ridgway, and James Van Fleet, in telling the American people that the Korean War could have been won had we massed our means, which is a technical way of saying that we did not do the job with all we had available to do it. He has resigned from the Army, quite young, undoubtedly because he is fed up with Pentagon and State Department politics. He follows the example of General Albert C. Wedemeyer who could take no more and is now selling farm machinery and refrigerators as MacArthur is selling electric razors and carbon paper.

These losses to our national defense are appalling. Highly specialized men, of costly technical training, with vast experience in war are being permitted to leave military service to go into private industry while the country still finds it necessary to protect itself. These men are not readily replaced because younger men, while able and equally trained, lack their war experience.

Men of quality will not stay with a service which deliberately rejects the prospect of winning a war, and which permits an enemy to hold Americans as hostages. These may sound like strong words, but I have met many officers in the past few years and while the conversations were so casual rather than formal, the summation of them is that soldiers do not like to lose wars.

Did you ever tell a lie? Would you be if something good were accomplished by it either for you or someone else?

According to Dr. Ben Karpmann, a noted W. A. S. (Washington) psychiatrist, the average person can hardly go through a day without lies of some sort, either conscious or unconscious.

Our mode of living, he claims, creates many situations which make lying absolutely necessary if people want to get along with each other.

Joseph Whitney, a psychological consultant, suggests that if you think that you are not an unconscious liar, you should ask yourself a few pertinent questions.

Supposing you were just married and your wife asked you for a first cherry pie. Supposing she asked you how you liked it. Would you tell her the truth?

Supposing a friend of yours invited you to her new house. You discovered that it was an ultra-utopia, the kind which you thoroughly dislike. Then, supposing she asked you for your opinion of it. Would you tell her the truth?

Supposing you were trying to sell your 1946 automobile. Would you tell the would-be buyer the truth about it? Or would you praise it to the sky and try to get a much better price than what it is worth?

**The Bible** condemns lying no matter for what reason. "Lying lips are abomination to the Lord," it says in Proverbs; and "I hate and abhor lying," according to Psalms.

But how many of us can truthfully say that we follow all the teachings and exhortations of the Bible?

Are so-called white lies ever justified?

In Henry IV Shakespeare says: "For my part, if a lie may do thee grace, I'll gild it with the happiest terms I have."

if they can give their lives to win them. The morale in our army is low because the generals have not been permitted to do a technically correct job.

In all my years in China, from 1918 to 1931, although I moved about with Chinese armies, I never saw a prison camp. There were none. Prisoners of war were either disarmed and let loose to become bandits, or they were incorporated in the victorious army, or they were killed.

That has been the normal method for centuries, because it was regarded as expensive and unrealistic to waste food on useless people. The most valuable asset of a prisoner of war used to be his arms which were taken from him with whatever other supplies he had. After that, he was of no value at all. Of course, if the enemy was defeated, when defeat was certain, go over to the enemy so that their troops would not become prisoners. They would negotiate such a transfer of allegiance on a contractual basis, providing so many men for a guaranteed payment not only to themselves personally but to the account of their troops.

When Army and Navy Intelligence still existed, such details were well-known, but now that the CIA is the sole agency of information, the evaluation of data is on a high political plane rather than on a technical military basis. While the data are always the same because it is the truth, the evaluation is different because the training and experience of the evaluators are different. And so, the truth and exchange of prisoners were made without provision against hostages.

# State Mails Sales Tax Forms To Thousands Of Retailers

## Taxable Items Being Compiled By Officials

Harrisburg, (AP) — Application forms went out yesterday to thousands of Pennsylvania retailers who will serve as collectors for the new state sales tax when it goes into effect Sept. 1.

Otto F. Messner, state revenue secretary, said he intends to see that all persons or firms selling items to consumers have an opportunity to secure the required application forms.

The sales tax law requires that all retailers be registered and display a certificate from the state prominently in their place of business.

"Those who sell tangible personal property will be notified next week through the press where they can receive the registration applications in their areas if they are not covered in the initial mailing," Messner said.

The initial mailing included 189,000 persons or firms listed as employers on records of the State Employment Security Bureau. Included with the applications were letters explaining just what each retailer's duty will be in collecting the tax.

The list of items to be taxed under the new levy will not be completed until next week. The department plans an education program through the press and radio next week to explain the tax status of each individual article.

Broadly, the tax law exempts all items selling at 10 cents or less and food for home consumption, restaurant meals, clothing, shoes, jewelry, articles, and items already taxed by the state. This group includes liquor, beer, cigarettes and gasoline.

However, there are a number of borderline cases such as ice cream.

The department ruled this week that ice cream would be exempt but ice cream sodas probably would be taxed. Attorneys from the Revenue and Justice departments are now working out the list of exemptions.

In a letter accompanying the application forms, Messner told retailers they could expect to receive the registration certificates they must display by about Sept. 15. At that time they also will be sent report forms covering collections for September and October. The first collection report must be returned to the state by Nov. 20.

Thereafter, the retailer will make his reports once every three months. The merchant must retain three per cent of the tax collected as compensation for the additional bookkeeping work.

"The tax shall be computed and collected on the basis of the total transaction without regard to the value or price of the separate items making up the total amount of a single sales transaction," Messner said in instructions to retailers.

This means, for example, that a merchant would collect only one cent tax on a sale including a number of items totaling less than \$1 instead of a penny for each item over 10 cents.

However, the retailer must keep account of the total amount collected in tax pennies. He must turn over the entire amount even if it totals more than one per cent of his total business.

## Jet Depot Discussed

(Continued from page one)

The six sites mentioned by Herbert Morris, first vice president of the Wilkes-Barre Chamber of Commerce who acted as chairman in the absence of Victor Diehm, follow:

One Broad Mountain section, Schuylkill County.

Two Broad Mountain plateau, near Hazleton.

Three — Property near Mauch Chunk in Carbon County, as proposed by Edward McCullion, Lansford.

Four — Blakeslee, in Monroe County.

Five — Ellis Corner, near Tullyhanna.

Six — Avoca Air Depot, Scranton-Wilkes-Barre Airport.

Jacob Wachtman, executive secretary of Pocono Mountains Chamber of Commerce and Vacation Bureau told the group that this section "is synthetic" toward the location of a jet plane base in Monroe County.

Wachtman said he was not authorized by the county groups to make any statement and was offering his own opinions. He said one site he had in mind was the southwest slope of Effort Mountain, which he said he selected in a survey sometime ago, and still felt was the best location.

He also suggested the committee learn from an incident lower near Blakeslee the records of past weather conditions in this county, to use as the basis for furthering their efforts in locating a base here.

Other speakers included Major Lee White, of Scranton, who recently flew around the section seeking the best place for a base; E. B. Ace, PP&L official, of Allentown, and others from the nine counties represented.

The Pottsville representatives also made it known they aren't pleased with the way Gov. John S. Fine and Commerce Secretary Andrew Sordani shopped off their attempts to have the State leaders intercede for location of the base in Schuylkill County.

McGuire said his group was incensed because Fine and Sordani made no effort to help and yet volunteered to assist the Wilkes-Barre-Scranton movement.

William W. Behrens, deputy secretary to Sordani said he didn't think the Commerce Department was asked to intercede, but Zerbe said there were letters on file to prove every effort was made.

Hazleton was selected for the forthcoming meeting because of its central location to all counties. It was decided to invite all congressmen from this region, Senators James H. Duff and Edward Martin, Gov. Fine, Sordani, U. S. Air Secretary Harold E. Talbott and Secretary of Defense Charles E. Wilson.

Preparations for the meeting will include gathering of all data for possible base site, assembling of weather information and a breakdown of the employment problem in Northeast Pennsylvania.

Secretary Talbott is expected to return from Europe on Aug. 21 and will receive the invitation to the Hazleton meeting then.

Named as the committee to prepare information on sites were Ace, chairman; Zerbe, of Pottsville; Major White, Scranton; Wachtman, Stroudsburg; E. V. McCullion, Lansford; Thomas Stainback, Hazleton; Joseph Rice, president of Tullyhanna Civic League; Morris, of Pittston; Nicholas Haydeck, of Nanticoke, and Bernard Blier, of Scranton, who served as secretary for yesterday's meeting.

## Fatherhood Prior To Aug. 25 To Determine Draft Status

Pennsylvania's 175 local draft boards were informed yesterday that evidence of fatherhood prior to Aug. 25 must be considered in determining the classification of draft age men.

That date was set as a deadline by President Eisenhower after which parenthood will not eliminate a man from being drafted for military service.

State selective service headquarters, however, advised local boards yesterday that if a man can furnish evidence of parenthood or the pregnancy of his wife prior to that deadline he may still be classified as 3-A.

The 3-A classification defers induction through dependency of proven hardship.

At the same time, Col. Henry M. Gross, state draft director, called on all registrants who have indicated dependency on their questionnaires with their local boards to file proof of their status by Aug. 25.

Gross said Pennsylvanians now being drafted are in the 19 years and six months to 20 years old group.

## Mrs. Hays, 62, Succumbs To Illness

Mrs. Hays was a member of the Methodist Church here.

## 'Mind' Revealed As Lesson-Sermon

At services in Christian Science churches Sunday the subject of the lesson-sermon will be "Mind."

The Golden Text is from the First Book of Samuel (2:3): "The Lord is a God of knowledge, and by him actions are weighed."

Among the Bible texts to be read is this from the Epistle of James (1:5): "If any of you lack wisdom, let him ask of God, that giveth to all men liberally, and upbraideth not; and it shall be given him."

## Committee Seeks 150 Blood Donors

An all-out effort to enlist the support of at least 150 people to give a pint of blood each next Thursday at the Stroudsburg VFW Post Home, was started yesterday by a special committee which will head the drive for the American Red Cross.

Howard Mount, committee chairman, disclosed 50 pledge cards have been returned to him but emphasized that many more volunteers will be needed if the drive is to be successful.

A bloodmobile unit of the Red Cross will be stationed at the VFW Home from noon to 6 p.m. Thursday, Mount said. The drive is the first of two being sponsored by the post for a total of 300 pints of blood. The second will occur there in September.

Mount also revealed the cooperation of Bangor's VFW Post has been extended by Leo Coulter, commander. Coulter already is appealing to Bangor area residents to contribute blood here next week.

In July, Mount pointed out, 13 pints of blood were given to Northampton County residents in the General Hospital, East Stroudsburg. The breakdown, by pints, shows two for Bangor, one each for Bangor RD 1, Slateford and Mount Bethel RD 1, two for Mount Bethel and seven for Portland.

Blue Ridge Textile Co. in Bangor also has been contacted for volunteers, Mount reported. A letter from William D. Scott, of the Bangor firm, said Mount's letter appealing for blood had been posted at all plants of Blue Ridge Textile Co. and next Monday had been set as the deadline for volunteers to register.

Monroe County industrial plants also are being solicited to allow volunteer blood donors time to report to the Post Home and give blood.

"In spite of the cessation of hostilities in Korea," Mount said, "the need for blood is still great. Prisoners of war, now returning to the American lines, will require a great deal of treatment, and probably many blood transfusions. In addition, the urgent need for gamma globulin to combat infantile paralysis is all the more reason why our efforts here must be successful."

Assisting Mount on the committee are George Strala, Edward Tweedie, Laurence Saverone, Victor Morrison, Franklin Weiler, John Darr, Edward Palmer, George Wagner, Easton Cooke, Thomas Shiffer and Lawrence Zaecore.

Friends may call at the Lutheran funeral home Sunday from 7 to 9 p.m. Rosary services will be held at 8 p.m. Sunday at the funeral home.

## Cpl. Perry Earns Honor At Carlisle

Cpl. Harrison I. Perry, son of Mrs. Mary Perry, of 565 N. Courtland St., East Stroudsburg, was named "Driver of the Month" at Carlisle Barracks by Col. Kenneth S. Anderson, deputy post commander.

A military policeman at Carlisle Barracks, Perry drove military vehicles 750 miles during the month of July without a mishap.

Before his assignment to Carlisle Barracks last year, Perry served two years in Korea with the 56th Military Police Co.

The National Geographic Society says Dewsbury, England, is called the rag capital of the world.

## Teen-Age Republicans Call On Hospitalized U. S. Senator, Remain For Lengthy Chat

(Photo on page 6)

Four teen-age Republicans yesterday afternoon became Sen. George D. Malone's first visitors in nearly a week.

The Nevada U. S. senator is confined to a bed in Monroe County General Hospital, victim of a fractured pelvis suffered when he fell off a horse he was riding on a Pocono resort hotel path.

There was a "No Visitors" sign on the door when the quartet of fledgling GOP members arrived. A coincidental wind had conveniently blown it up, out of place, however.

In the group were John Eaton, president of the Teen-Age Republicans of Monroe County; John Kiffin, whose idea it had been to visit the senator; Cathy Gerard and Judy Cramer.

Recalling their interview with Malone, one of the group said "the senator seemed a little surprised when he looked up and saw us."

"Then the nurse arrived and asked us where we were from and we told her. She went back into the room and pretty soon we heard the senator's voice saying 'Send them in.'"

Originally the group had intended to make their call a "short one." Just long enough to tell the Senator that "there were some Republicans in Monroe County who cared about his welfare," a spokesman said.

The "short" visit turned out to be nearly two hours in duration. Sen. Malone briefed the group on his impressions of politics, constitutional government and congressional actions.

Carrying a potted white chrysanthemum, the two young men and two young girls gathered around the Senator's bed.

"He was very glad to see us. He told us he was particularly happy to have an opportunity to talk to teenagers since he felt they were the type of people he wanted to talk to," one of the group said.

In response to questions, mostly from Kiffin, Malone asked the group to remember there is "no such thing as an irreplaceable man."

"If there were irreplaceable men they would be dictators," Sen. Malone told us. He said they tried to build Roosevelt up to being an irreplaceable man," the spokesman continued. "But the Senator refused to criticize a dead man. He said he would rather fight New Dealers who are living."

One of the major points against the New Deal and Roosevelt was the fact that "sections of the government are not staying apart as they should," the Senator told the group.

"He criticized the practice of recommending 'must' legislation... emphasizing that the legislative and executive sections of the government should be kept separate as a guarantee of liberty," the spokesman continued.

"The so-called bipartisan policies called for by (the late) Sen. (Arthur) Vandenberg... and the practice of letting the Secretary of State and various members of Congress get together and work things out ahead of time" were also criticized by Sen. Malone, a member of the group said.

Sen. Malone, who was not "a fully polished talker," according to the group, consistently pointed out

that representatives in government should not be "afraid to take stands on issues... but should speak their minds on issues regardless of losing or winning elections."

During the last Republican convention, the Senator told the group, he had "personally favored Gen. Douglas MacArthur" who, he said, "had been right about Korea."

"He also told us that Sen. (Joseph) McCarthy was as right as rain," one of the group said. "But, where loyalty investigations are concerned, he said he believes that a man has a perfect right to swear on the Fifth Amendment. But if such a man does swear on the Fifth Amendment and won't tell a legislative committee where his sympathies lie, then he has no right being in your government and mine."

General consensus among the group about the Senator: "He's a fine, intelligent man, who doesn't talk like a politician."

Said Eaton: "I was sort of surprised. I've always expected a U. S. Senator to be sophisticated and aloof. Sen. Malone isn't like that at all. He talks cold, down-to-earth logic. You might think you could disagree with him on a point or two, but when you think it over you think better of it because you know he could out-logic you."

Advice from the Senator to the boys and girls: "Finish your education. That's what you need to do."

## Two Fined On Game Law Violations

Monroe County game protectors put the finger on two more alleged violators this week.

William Charles Brush, Canadensis, paid \$200 fine and \$6 costs for "possessing parts of two deer taken in closed season."

Ed W. Heckman, also Canadensis, paid \$100 fine and costs for "killing doe deer in closed season."

Arrest of Brush and Heckman brought to three the number of Canadensis residents charged this week with violation of deer game laws.

On Thursday, Joseph Hoover, that place, was committed to 100 days' imprisonment in county jail for possessing illegal parts of deer.

Justice of Peace Emma Noonan, Mount Pocono, issued warrants for arrest of Brush and Heckman.

## Teenage GOP Has Party At Holiday House

The ranks of the Teen-age Republican Club have grown and at their fourth meeting, held Thursday night at Gerard's Holiday House, there were 62 members present.

John C. Eaton, president, presided at the business session when the teen-agers voted to give flowers to Senator "Molly" Malone, now a patient at the General Hospital of Monroe County, and appointed a committee to make the presentation.

They also planned a box social to be held at Saylor's Lake on August 27, at 7:30 to which they are inviting all the Republicans of the county. County Chairman Ben K. Williams will speak briefly.

The major portion of the meeting was social with Lovell Fellman, chairman of the program committee, serving as master of ceremonies. Miss Charlotte Bach sang two solos, "Blue Moon" and "You Made Me Love You." Terry Bartholomew played a tenor saxophone solo, "Dark Eyes." Richard Van Why sang "Because You're Mine" and "Lucky Old Sun."

John Eaton gave his impression of "Sam Spade, Private Eye" at the piano. Walter Peeney and Charlotte Bach danced a polka and Kathy Gerard did the Charleston. Peter Keiter and Ray Fellman presented a drum duet, "Rhapsody on Drums."

New members welcomed to the group included: William Serafs, James Iff, Jack Iff, Barbara Ann Serafs, Peter Kiefer, Elvone Grisel, Loren Flagler, Elsie Summa, Mary Sue Harvey, Lisa Rosenberger and Sharon Stutter. Refreshments served by the hostess committee completed the entertainment.

## Just Between Us

—By Bobby Westbrook

This is the first weekend without a wedding since St. Swithuns Day. I really believe, however, it's not a permanent state of affairs since there are several scheduled for early September. Just why nobody picked August 15 as a wedding anniversary I don't know, but anyway they didn't.

And probably it's just as well, because judging by the traffic on the roads and the strangers in town last night, they'd be lucky to get as far as Portland on their honeymoon.

I must admit that weddings have been a lifesaver for the social page this summer. However, the clubs are now beginning to perk up their ears and show signs of life. Executive board meetings for the Woman's Club, the Juniors, Saylorsburg Progressive Women and the county federation point the way to a pretty hectic opening round.

Then it's back to hats and gloves and stockings for most of us. But not all of us have discarded them. There are a few ladies of the old school whose password is still "No compromise with propriety" and no concessions to the weather either. I was watching them arrive for a bridge party the other day. Each one complete with hat (discreet) and white gloves, (kid) necklaces (pearls) and afternoon dresses (with sleeves).

And really they looked much cooler than the rest of us, looking somewhat rumpled by comparison in cotton dresses, play shoes and shiny noses.

Their's is the generation reared in the tradition that no lady is ever seen outside of her home without hat, gloves, and a clean handkerchief, and they still live by the rules. You have to admire their fortitude, even when you realize that nobody seems to be following their example anymore.

## Fire Co. Aux. Has Preview Of Firehouse

Kunkletown—Work on the new building to house the Kunkletown Fire Co. is due to start within the next two weeks, and the Ladies Auxiliary of the Kunkletown Fire Co. had a preview of plans for the building at their meeting on Monday night.

Kenneth Keller, secretary of the Fire Co. of Kunkletown, explained tentative plans for the new building which will be erected on the site they recently purchased. It is to be a concrete block structure, 40 by 60 feet with steel girders to eliminate any pillars or posts. This will provide excellent housing for the fire fighting apparatus as well as a suitable room for social functions.

The building will be equipped with modern wash rooms, and will be so designed that a second story may be added at some future time.

Volunteer work will play an important role in the excavating, he said, which should take place within the next two weeks.

The Shoeny Co. is donating the excavating equipment and the men of the fire company are donating their time.

Mrs. Elsie Dehanninger, president of the auxiliary, introduced Mr. Keller and conducted the business meeting.

The auxiliary plans to serve at the refreshment stand at the Frable Reunion on Sunday, August 16, and at the Gower Reunion on September 6, both at the West End Fairgrounds.

On September 12, they will have the stand at the Kunkletown Picnic Grove when the Fire Company will hold a cakewalk.

September 19 was set as the date of the next penny supper which will be served in the church basement. A demonstration was planned for the next regular auxiliary meeting, which will be held on September 14.

After the business meeting, games were played.

## Around The Stroudsburgs

Mr. and Mrs. John H. Rodenbach and the latter's mother, Mrs. William Fly of North Tenth St., Stroudsburg, have moved their household goods to Harrisburg where they will reside with the Rodenbach's son and his wife, Mr. and Mrs. John A. Rodenbach at 251 Crescent St.

Miss Louise Raughley, daughter of Mr. and Mrs. James W. Raughley, 62 Analomink St., is celebrating her birthday today.

This is the time of year when everyone is getting ready to return to school . . . It's pretty much like the birds getting ready to fly south. If you're a bird you do it—and if you're a person from five to forty-five you listen for the school bell, nine chances out of ten.

It's an all-inclusive sort of thing, seems to me—like being drafted into the army if you're male and over eighteen — because, if you don't go to school as a student, you may very well be going as a teacher . . . and if you're not a teacher, you're very possibly a parent, racing off to registration, conferences, programs, and P.T.A. meetings. My personal opinion happens to be that, by and large, the educational system is far more demanding on mothers and dads than on their offspring.

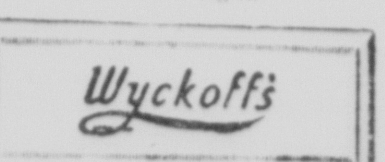

This being so, it's easy enough to see why the return to school is such a big merchandising event each year the nation over. It isn't enough for Sallie and Tim to have the correct clothes from the skin out, or for teacher to have everything bright and shiny from the springiest curl of her new perm, to her comfortable American Girl shoes . . . but mother must also look her finest whenever she herself participates in any of the educational side-shows, from the afternoon tea to the evening lecture.

Wyckoff's is fully aware of the great pride that parents and children share in the preparations for school. As a store, we know every degree of excitement, anticipation, last minute reluctance, and even resignation, that a child may sense when he sees summer drawing to a close. We know too the mingled feelings of the parent, who is torn between a "Too bad" and "Thank goodness," when vacation ends. And our buyers know—from experience—the feeling of panic that comes over many an average home, along with the realization that not just out but several youngsters have grown like weeds, right out of every stitch they owned, and are threatening to put the budget in the red.

That's why our store is stocked so fully with merchandise that will please you thoroughly because it is excellent quality, looks handsome, is well made, and will wear for a long time, at a cost very reasonable indeed, in view of all these advantages.

At this very moment, Wyckoff's is in a "big apple" mood. We have apples for the teacher, her prized pupils and their parents, in good buys everywhere in the store. We can outfit any "back to schooler" handsomely, from an eraser to a raincoat. In our primer, the A, B, C of wise shopping means "Always Buy Carefully"—Shop Wyckoff's.

Yes, Junior will learn to read, But Mother and Dad can read — and they favor such writers as Ayn Rand, Nevill Shute, Tallulah Bankhead, Lloyd C. Douglas, and Vera Caspary. That's why they join the Peoples Book Club, a very splendid Sears project that's winning plenty of friends and influencing thousands of people. This is Anna Schweinberg's last day in our store, so do talk with her at her book display in the center aisle. Four books for \$1.87 . . . just think of it! The printed word is almost as cheap as the spoken word . . . but it carries far more weight.

## Lake Harmony Faces Task Of Fighting Field

Lake Harmony, two games out in front of the pack at the present time, will attempt to fight off the remainder of the Pocono Mountains League down the home stretch, with the first of a series of games on tap tomorrow.

The front running contingent will play host to Reoders, the number three club in the current standings. Reoders is currently two and one-half games off the pace being set by Lake Harmony.

Kunkleton, currently running along in second place, two games behind the top contingent, will attempt to make up ground when it tangles with a tough Saylorsburg crew, on the Kunkleton field. Saylorsburg at the present time is tied with Barrett for fourth place, three and one-half games behind Lake Harmony.

**Important**  
Barrett will attempt to pull itself right into the thick of the battle when it tangles with Pocono Lake, on the latter's home field. Pocono Lake is in sixth place, seven and one-half games behind Lake Harmony.

Fifth place Bushkill and sixth place Tannersville collide on the latter's home field at Pocono High School, Tannersville. Barrett at the present time is four and one-half games off the pace, while Tannersville is five games behind.

West End A. C. and Anantimink round out the day's schedule by clashing on the latter's home field at Henryville. Anantimink must win to stay out of the shadow of last place, a position currently occupied by West End.

In all cases action gets under way at 2 p. m.

## Blue Mountain Playoffs Today

Both first round playoff series will come to an end in the Blue Mountain League today, providing the weatherman decides to cooperate.

In each case action will begin promptly at 2:30 p. m.

**Major Battles**  
Martins Creek, the regular season title holder, will have to fight hard to stay in the running as it plays at Tannersville. Each club has won one game and lost the same number.

Roseto and Portland also all even in the three-game series, tangle at Roseto.

## Eagles Oppose Blair A.C.

One of the top softball games of the season will be played at Stroudsburg Playground today at 2 p. m., when the Eagles oppose Blair A. C. of Scranton.

## Four Association Games Listed

Lake Ariel, Newfoundland will be merely going through its paces tomorrow as four games will be played in the Pocono Mountains Association as the Bears have already won the 1953 pennant.

The Bears will invade the home domain of Maple Lake, in what may be the final game of the season for both teams.

**Doubleheader**  
Gouldsboro, needing a victory to be certain of a second place finish, will battle Hamlin, on the latter's home field.
